

**30.5 ACRES OF AR-5 THANKS!  
RV PARK REZONING UPDATE:**

This chapter of our fiercely fought seven month battle preserving the nature of our neighborhood and its resources by stopping rezoning of 30.5 acres from AR-5 to Commercial Heavy (in accommodation of the initially proposed 225 vehicle no-restriction entry RV park) has drawn to a successful close!

During the Town Council Meeting on June 28, which the Town moved to the Senior Center for a larger venue in accommodation of all the requests they received (because of you), the petition to rezone to Commercial Heavy for the RV Park is officially withdrawn. Congratulations to each and every one of you Chino Alliance, together we are **CHINO STRONG!** A special thanks to Rachelle F, who represented our group with the determination and leadership that we one day hope to see on our Town Council.

Further we want to acknowledge those who INITIALLY showed leadership and voice of reason on the P&Z Commission by **voting NO on this rezone** who are Commissioners Summerville, Meadors, Penn and our indisputable favorite **Robert Switzer (Cargopac endorsed Write-in for Town council)**. Council members that demonstrated strong leadership in voting to hear our issue on the initial date it was scheduled for are Armstrong, Granillo, and Turner. Thank you for your desire to hear what your **Constituents** have to say!

We also want to acknowledge several other successes related to this issue reflected in proposals submitted to the P&Z Commission by the Town Development Services Director Laurie Lineberry. A couple of examples are broadening radius of P&Z notification mailers to 900 ft. in AR-5 district zoning and guest house rentals as an alternative and better solution for affordable housing than RV Parks.

To all of you who contributed to our cause by attending the Town meetings, financially, with time and our event at the Winery; your contributions made it possible to fuel this campaign and paid for protest signage, multiple mailers, and the website that informed our community of that pending rezone. Gratitude.

We have determined in this seven month journey the only way to make true and lasting change in growth and rezoning policies of the Town is through civic engagement and working to seat a responsible growth Town Council. To that end Alliance members Rachel F and Juliann B have founded a sister organization in form of a Political Action Committee registered with the Town in order to have construct through which to give our people a voice in the civic realms of discussion & decision our Town is currently engaged in. We invite your participation in our site to make lasting and permanent change to the Town **ordinances and policies** regarding reckless growth. The site will be updated with election activity, **Council member voting records & Candidate forums**. Get to know which candidates have **Responsible Growth** positions that agree with your principles! [CHINO ALLIANCE FOR RESPONSIBLE GROWTH ORGANIZATION]

**Special thanks to:**

**Annemarie, Bob C, Grant F, Jim D, Kate OM, Linda S, Mary S, Tony G, Winey Cats, Save the Dells & all the volunteers that supported the BBQ!**
